YOHANNIS MESFIN

Full Stack Developer

Passionate Full Stack Developer with 2+ years of experience building modern web applications using React and Node.js. Specialized in creating user-friendly interfaces and scalable backend systems. Strong problem-solving skills with a focus on clean code and best practices. Also experienced in professional video editing and digital content creation.

PROFESSIONAL EXPERIENCE

Full Stack Developer

2023 - Present

Freelance / Contract Projects

Developed and delivered multiple web applications for clients including rental management systems, educational scheduling platforms, and school management solutions.

- ▶ Built a comprehensive House Rental Management System serving 100+ users
- ▶ Created Smart University Scheduling System improving class organization efficiency by 40%
- ▶ Developed High School Management System with student, teacher, and class tracking
- ▶ Implemented RESTful APIs and JWT authentication for secure applications
- ▶ Integrated MongoDB and MySQL databases with optimized queries

Video Editor & Content Creator

2022 - Present

Freelance

Produced and edited professional video content for various clients and platforms.

- ▶ Edited 50+ professional videos for social media and corporate use
- ▶ Created engaging content with advanced editing techniques and effects
- ▶ Collaborated with clients to deliver high-quality video projects on time

FEATURED PROJECTS

House Rental Management System

2024

A comprehensive web platform for managing rental properties, tenants, and payments. Features include property listings, tenant applications, payment tracking, and maintenance requests.

React Node.js Express MongoDB JWT Auth

Smart University Schedule System

2023

An intelligent scheduling application for universities to manage classes, courses, and timetables. Includes conflict detection, room allocation, and automated schedule generation.

React Node.js MySQL REST API

High School Management System

2023

A digital platform for organizing student records, teacher information, class schedules, and academic data. Features role-based access control and reporting capabilities.
